The Most Serious One Known for Years

PILISHID Mass April 23 The most serious strike known in Pittsfield for years began this noon when over 600 employes of the Income and Balar mills refused to return to work Both mills are run by Wilson & Horton who on the first of January 1531 reduced more than the state of mills are run by Wilson & Horton who on the first of January 1531 seduced wages 10 per cent The employer vanily asked for a restorat on (f the old sched

wages to per cent. The thiptoyer vaminy asked for a restoration of the old sched ale several times and this moon a committee representing every department in both mills waited on Mr. Wilson and repeated the request for restoration. Mr. Wilson told the committee that the request could not be granted as the condition of business did not warrant it. He said business was being done on a close margin and as soon as times improved wages would be restored to the old figure. The employes claim that business does warrant an increase and point to the fact that new buildings and machinery are being added to the Taconic mills and they are running nights.

The conference lasted an hour but no conclusion was reached. When the whistle blew not an employe went into the mill. The strikers voted unanimous ly not to return to work until the 10 per y not to return to work until the 10 per lent reduction is restored. The striker

say wages have been restored all over the country and ought to be here. They say they cannot earn sufficient to pay their board. Mr. Wilson is a very fair man and the trouble may be adjusted soon. From a Methodist Minister From a Methodist Minister

Mr. Whitney is the gentleman who, as the representative of the Department of Justice and of Mr. Cleveland's Administration, made the opening argument before the Supreme Court in support of the consti-tutionality of the entire income tax law enacted by the 63rd Congress. He was
